

Briefing session

Graduate School of Engineering
The University of Tokyo

Department of

Advanced Interdisciplinary Studies

Wednesday May 22, 18:00~

Online (ZOOM Meeting)

* Briefings will be given in Japanese.

東京大学 先端科学技術研究センター
Research Center for Advanced Science and Technology
The University of Tokyo

In the Department of Advanced Interdisciplinary Studies at the Graduate School of Engineering (GSE), The University of Tokyo, students can choose from a wide range of research fields that encompass both science and liberal arts. These fields are based on the Core Courses of GSE and the six Research Fields of RCAST. Many students in the Department of AIS also pursue their studies while working at their companies.

During our briefing session, we will introduce our department and also explain about the Schedule A entrance examination, which will take place in August 2024. We welcome those who wish to take the exam, seek information for their future careers, or have a keen interest in our department. Please feel free to join the session.

Register by May 17th (Fri.) using the form below.
